

MM-94B

Motor-drive Manipulator

MM-94 for right and left-side

MM-94B is an add-on type manipulator for left-side use of MM-94, that is used with a control unit of MM-94. For the full setup with right and left-side, MM-94 and MM-94B share one control unit.

* MM-94B is left-sided model.

Control Unit

Since MM-94B does not include control unit, MM-94 is required to use MM-94B.
For left-side use without control unit, please contact us.
